SOFTWARE PROJECTS

Weather Forecast (05/02/2024 – Present)

- Developed an interactive weather application using HTML, CSS, and JavaScript.
- Includes search engine with weather API integration that allows users to search for any city.
- Allows users to receive actual weather forecasts from real life data.

Retail Company Landing page (15/11/2023 – 15/12/2023)

- Developed a landing page for a retail company using HTML, CSS, and JavaScript.
- Includes product information, delivery service process, contact information, and location map.
- Allows users to browse to different sections of the page on the menu.

Basic Calculator (21/11/2023 – 04/12/2023)

- Implemented an interactive interface with buttons for different operations using HTML, CSS, and JavaScript.
- Includes a display screen showing user input and results.
- Allows users to toggle between 2 different themes.

Portfolio Website (05/12/2023 – 15/12/2023)

- Developed an interactive portfolio using HTML, CSS, and JavaScript.
- Includes various sections such as a header, about, skills, projects, and footer sections.
- Allows users to download resume, browse projects via live demo or source code on GitHub.

PROJECT MANAGEMENT PROJECT

Project Assistant Manager for Academic Roundtable Project at STADIO (08/2023 – 10/2023)

- Led project team to achieve project success.
- Kept track of project progress and scheduled group meetings.
- Performed admin tasks and maintained project documentation.

EXPERIENCE

SheCodes Plus   (16/01/2024 – Present)

- Learnt advanced HTML, CSS, and JavaScript (ES6) techniques to build an interactive application.
- Learnt how to integrate live APIs to fetch live data.
- Learnt how to use Git and GitHub to manage my code.
- Currently completing my final weather application with API integration.

SheCodes Basics   (08/01/2024 – 12/01/2024)

- Learnt basic HTML elements and how to build an interactive web page.
- Learnt how to style an HTML page with CSS.
- Learnt how to create basic JavaScript functions and work with a code editor (VS Code).

Codsoft Web Development   (15/11/2023 – 15/12/2024)

- Learnt basic HTML, CSS, and JavaScript on my own.
- Designed, structured, and developed a landing page, calculator, and portfolio projects.
